	Heifers were a pleasure to walk into the yards and assess. You can walk through these heifers and nearly have to push them out of your way. Have been fed hay throughout the drier months last year when calving and are very quiet. Odd heifer exited crush quickly but settled back into mob quickly.

Assessor Comments	A neat run of Angus heifers with sappy Hazeldean calves at foot. Heifers were purchased locally of Auctionsplus at PTIC Heifers. originally bred on the South Coast so some may have a splash of Friesian but were purchased as Angus x Angus . Heifers did it tough at the end of last year when calving in the drier months. Have picked up well since some summer rain and are in forward condition now, ready for the bull in a few weeks. Calves are very sappy and are putting on weight well. Moderate framed heifers that would weight on quickly if given the opportunity. This mob would be an ideal opportunity to trade, by selling a weaner and rejoining the heifers to the bull of choice for an Autumn calf. All calves are marked and had a 7 in 1 at marking. Plenty of upside in these cattle by not buying fat. Please note: Agent can arrange freight to Riverinna with weekly market trucks to Wagga or to Cooma saleyards to link up with a bigger truck.
