As in the video the cow are nice and easy to handle in the yards, only an odd one with a bit of run in it. Nothing dangerous

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	An outstanding line of young PTIC Santa / Ultrablack cross cows that are only on there 2nd calf. They are great to handle in the yards and would be a welcome addition to someones cattle operation. They are all in calf to Mandayan Black Limousin Bulls. They would do well in any district, but would look and suit a northern operation, due to that addition of the Bos Indicus traits that would help them to thrive in a northern climate.
