Solely handled by a 79 year old gentleman without any hassles. Cows are well mannered and easy to handle. All drafted off their calves OK, led up the race and were mostly good in the crush - Some stubbornness, wanting to hang on the back gate since their last visit was for preg testing! Calves appear to be a good chip off the cows too, all displaying a calm & sensible disposition.

4 Head	White up to & forward of the Navel

Assessor Comments	Very good line of experienced matrons that have delivered a calf every year. Genetically very good, carrying Myanga, Mordallup & Te Mania bloodlines. Remaining in the system by proving good fertility and delivery a calf every year, as well as longevity in their structure, holding up in the feet & udders. Cows that do an excellent job on their calves every year, and have so again this year, all presenting a fresh, sappy calf, that has never seen a tough day, or missed out on a feed. Realistically reserved at their split value, these are a very good line of females that are a credit to themselves in fertility, structure & temperament and present a very good opportunity to retain some quality young heifers & build up a good herd, or appreciate their split value after we see an Autumn break.
