Assessor Comments	27 Beautiful PTIC Black Baldy Heifers 2.5 Y.O, with a small percentage being Angus. With showing the benefits of a good season heifers present in prime condition and due to start calving on the 29/3 for a tight 6 week period. The heifers themselves are by Garras and Cheltenham Park Angus bulls. Heifers were A.I'd on the 19/6 to Chiltern Park Moe M116 Angus bull then went in with Cheltenham Park Angus Bull on the 22/6. They averaged 631kg (full) at assessment and ranged between 566 - 732kg. These heifers were a pleasure to handle in the yards and are very quiet. A nice consistent line of Autumn calving heifers that won't disappoint and mature into good large frame cows. Please note = One blue roan heifer in this lot (see photos). Vendor has another 2 lots of PTIC Cows with the same joining period.
