Assessor Comments	A neat line of 14 PTIC cows, very quiet to handle. These cows present a great opportunity for a buyer to boost herd numbers with the bonus of a number of these cows being younger cows, with one cow only being a first calving heifer. coming from a productive herd they present in good condition to be carried through to calving. These cows have been running with a High Spa bull continuously and have been preg tested in calf, 3 cows were deemed to be less than 4 months in calf with the remainder being 4 - 6.5 months in calf by the vet at the time of preg testing, certificate available.
