Assessor Comments	48 Watervalley Black heifers. 2021 and 2022 drop (365.2 LW curfew), the heifers are in store body condition, however still in fresh order, doing an good job on the 48 fresh sappy calves at their foot (147kg LV), from 2 to 9 weeks old. They have some crosses in them, with approx 10 heifers and 10 calves appearing with a slight brown tinge down their legs, all presenting in healthy condition with smooth coats, generally medium frames with approx 4 small, and 4 large frames. Heifers doing a good job on first calves. This line of heifers and calves are the first of Watervalley's offering, showing their doing ability, fertility, and versatility that the Watervalley Black cattle have a reputation for. This article would make an ideal line of trading cattle that will perform on even plainer feed. Suitable for those buyers looking to add value to their purchases.
