	Extremely quiet cows, easy to handle. Always very quietly managed.												
Handled With	Bikes , Vehicles												
Assessor Comments	A neat line of 10 very well bred AA PTIC cows that are due to calf in March/April. The herd ranges from three to five years of age, ranging from 2019 to 2021 drops. These cows are Stoney Point and Glatz Black Angus bloodlines. These cows were all docile in the yards, and were quiet, even when under pressure in the crush. They are all large in frame and are in prime to fat condition. Also, all cows in the herd ARE EU ACCREDITED. Bid with confidence that any purchaser will receive a very quiet and extremely well bred line of cows that are sure to produce brilliant calves in the coming months and the future as well. Please be aware that these cows are very close to calving, so travel distance becomes a factor.
