Very easy cattle to handle. They have had a lot of exposure to handling and yards with regular rotational grazing patterns and this also makes the cattle quiet. They were through the yards and every heifer just took their turn and stood on the scales. Not one heifer moved on the scales during the whole process. Exceptionally quiet

Handled With: Bikes , Vehicles , 4 wheel bike

Assessor Comments: All the Yala Yala cattle are well handled and a pleasure to work. A wonderful opportunity to secure quiet cattle to establish an Angus herd or to add to any established herd heifers with a dash of Simmental for milk and growth. They are in sensational condition to go into calving. Big bold well-conditioned heifers for a lifetime as quality breeders. Highly recommended for those looking for quality cattle. Blackstone Angus bulls in 3/7 to expect calves on or about 11th of April perfect for the opening rains. Most of these heifers will have a dash of Simmental to 25% or less (nothing over). There is the odd white area be it an udder or navel on some. They will make magnificent cows that you will be proud to own.
