Assessor Comments	A well present line of 440 station mated Ewe lambs & hoggets are on offer. Ewes will not disappoint any purchaser who wish to purchase Ewes that ooze quality with many years of breeding behind them... Ewes have been station mated to top quality Rams from Amarula, Burrawang & Smit Dorper studs. Ewes would make great future breeders as they have good confirmation & style with all the characteristics shown of a quality young breeder. These Ewes have a proven history to grow to large Ewes and Ewes of this calibre are hard to source if looking for well presented stock for breeding purposes. Ewes will not disappoint any purchaser wanting to add additional ewes to their dorper operation. There was approximately three ewes in the mob having Brown markings. Ewes are mainly black headed with a small portion being white Dorpers please see photos & video for own satisfaction. Buyers note Ewes are approximately 10 to 12 months & were all milk tooth with only one hogget was discovered when mouthing.
