Assessor Comments	470 x 4.5 yo Leahcim bld ewes. Good medium to large frame ewes, Nov 23 shorn, lambs weaned off at the start of January, drenched, jetted and put on good feed with recent rains. Ready to bound away and join up with the rams of your choice. The Holcombe family have been using Leahcim rams for 16 years now and the traits of the blood are showing through with good plain bodies with no mulesing. Please note there are a small percentage of ewes with white tags, these were used as replacement tags for ewes that didn't have green tags as no green tags were available. Also observed a small percentage of ewes with horn/scur. Ewes starting to even wear in the mouth, normal for the country they run on with plenty of life in them, please see photos. Sheep also had 3-4mm of rain on them in light rain before and during assessment. Vendor also has another 39 ewes same age and 15 x 1.5yo Stud Rams in the same sale. ****Please note one day delivery****
