Assessor Comments	The owners have purchased good quality, expensive Merryville rams every year & all the ewes have been classed. They are growing a bright white, fine crimping style wool & have had very good returns in the auction room for this product. Last year's wool clip averaged 16.9 micron & usually have been averaging for the last 5 years 17.4. They are medium to large frame ewes & are enjoying good seasonal conditions & are on the improve since weaning the lambs off them.
