Assessor Comments	A neat run of Greenlands blood Merino wethers. Presenting in forward condition, these wethers are bred to produce fine micron wools, with vendor exceeding 2000c/kg each year. These wethers would be ideal for any fine wool growing operation, or to fatten, shear and trade. Low maintenance sheep that will fill bales with high quality wools. Wethers are 2/4 teeth with approximately and even split between 1.5 & 2.5 years. 1st Sept shorn, wethers have a nice staple back on them and would generate income quickly. Please note: Agent can arrange freight to the Riverina with weekly market trucks to Wagga saleyards.
