Assessor Comments	An excellent line of 4.5 and 5.5 year -old Highlander ewes in prime condition and scanned in lamb to Highlander rams and joining dates suggest lambing should commence late April for approximately 6 weeks. These ewes were only wet and dried by the scanner, but the Avondale flock have consistently marked 140%+ lambs in the past. Mouthed 5 orange tag ewes- 3 sound, 1worn, 1 faulty mouth. These ewes are only available due to end of lease. There are 2 other lots of these ewes in this sale, an opportunity to put 490 top quality breeders together.
