Assessor Comments	these ewes are huge, a classed in line of dohne/white Suffolk purple and red tag ewes bred to produce heavy export lambs with previous lambs being over 40kg dressed average, these ewes were joined for a traditional may lambing with 3% dorsets rams being drafted out on assesment, last years lambs weaned at 145%, ewes have been on fantastic regrowth barley stubble so everything has been done right for a successfull scanning, ewes would normally be held onto and scanned only selling ewes now as to make way for cropping practices,
