	Store Condition		
	Fwd Prime	10%	
	Fwd Store	90%	
Temperament	Yards	Crush	Paddock
	Quiet: 100 head	Quiet: 84 head	Temperament not assessed in
	Slightly Stirry: 20 head	Slightly Stirry: 36 head	Paddock
	Heifers were pretty quick in most areas of the yards. They do tend to gallop about when spooked in the bigger yards but nothing that could be considered aggressive. Like all cattle they need to be steadied through gateways etc. These heifers don't look to have had the handling that these cattle get in most years. Most heifers resented being pregnancy tested and needed and this not abnormal.		
Handled With	Bikes , Dogs , Horses		
Notable Traits	Traits		
	7 Head Buffalo fly rub		
Assessor Comments	Buyers a 4 deck line of PCAS ELIGIBLE heifers best described as Composites (mainly the Angus and Brangus types) bred out of crossbred cows. These would suit a trade feedlot entry or could be taken to heavier weights off crop or improved pastures to MSA domestic slaughter heifers. Highly suitable for restockers looking to rebuild breeder numbers as well and are ready to join to the bulls of your choice. There were 6 in the line that were injected with a PG vaccine as it was thought they were in the early stages of pregnancy. Most are flatback types with only 6 with a bit higher Bos Indicus content with a bit more ear and slight crest visible in photos. Noted about 5 heifers with white faces. All guaranteed for clean country entry and will scratch clean on farm. These respond well to horses, bikes and dogs. The two No2's in the lot both mouthed milk tooth. Note- Vendor has also got a lighter 2 deck crossbred line in this sale that could go with them.		
Assessor	Creeden Weir (Level 2 Accredited) Phone: 0438 776 867		
Delivery Period	04/03/2024 to 08/03/2024 (5 days)
