Assessor Comments	An opportunity to purchase 50 Wagyu heifers of which 31 are full blood and 19 purebred and all carry outstanding kill data with the last two years results attached in the photo section of assessment. Heifers were weaned earlier than usually due to a very dry spring, however summer rains have now allowed for a good season and cattle are doing well. Heifers have been well sort after in the past to go back into Wagyu breeding herds. Buyers please note, three heifers were treated for slight pink eye at assessment, one heifer noted to have some ringworm and one heifer noted to have cauliflower ear. Please note that there is a sister lot offered in the same sale.
