| Assessor Comments  | An opportunity to purchase 50 Wagyu heifers of which 31 are full blood and 19 purebred and all carry outstanding kill data with the last two years results attached in the photo section of assessment. Heifers were weaned earlier than usually due to a very dry spring, however summer rains have now allowed for a good season and cattle are doing well. Heifers have been well sort after in the past to go back into Wagyu breeding herds. Buyers please note, one heifer has a cauliflower ear. Please also note that there is a sister lot offered in the same sale. |                         |                             |
