Assessor Comments	Buyers, a run of Vendor bred Angus x Santa, black coated steers. Steers weighed 180 - 296Kg to average 234.7Kg at assessment. Cattle present in store condition and would be an ideal article to put straight onto a crop to grow into feedlot weights. With a rising plane of nutrition these steers should have large compensatory gain. Steers are out of Angus and Angus Cross cows sired by "Watasanta" Angus X Santa bulls. Steers have all responded well to the recent flush in feed and have received an oral drench. 2 steers were treated at assessment for slight weeping with terramycin (photos attached). For further information please call.
