Vendor Comments

Due to seasonal conditions Lue Station chose to join a limited number of heifers in 2023. These heifers represent the balance of what would have been joined if better seasonal conditions prevailed. Retained heifers scanned 95% after 8 week joining.

	Several heifers did become agitated when isolated, however did settle once returned to mob. As a mob, some heifers did tend to rush when moved through gateways. Would pose no problem to experienced cattle handlers.					
Handled With	Bikes , Vehicles					
Assessor Comments	A great opportunity to purchase a line of one mark heifers direct from one of the districts noted Angus herds. This lot represents the top draft of heifers from a mob of 112 surplus heifers. All scanned empty day of assessment for buyer confidence. Vendor has purchased bulls from the top end of the catalogue at Coffin Creek Angus annual sale for a number of years. Would be suitable as either future breeders or equally so as backgrounder/feeders. One heifer with slight white colouring under flank, behind navel.
