Totals			11%	89%	100%

Comment on Fat Score 1 Cattle	Steers are in a strong store condition with minimal fat cover however are all fit and healthy and simply adjusting to green feed. no concerns trucking long distances. Steers have all been trucked as weaners and would anticipate no problems trucking in excess of 800km without spelling.
-------------------------------	---

Vendor Bred	Yes
Stock History	Bred in light forest country north of Richmond and trucked to downs as weaners. All received a Botulism and worming at weaning. along with significant education.
Lifetime Traceable	Unknown
Bloodlines	Out of a herd of highly fertile soft Brahman and Brahman Cross cows by Charolais, Brangus, Droughtmaster and Brahman Bulls.

Grazing Conditions	Extensive body of fresh green Mitchell and Flinders Grasses on open black soil downs, large body of summer herbages and weeds throughout the paddock. Returned same
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives				
Eligibilities	Russian Eligible Saudi Eligible				
J-BAS Score	6				
Vendor Comments	A good quality line of 2023 second round weaner Steers. Typically we would grow these steers out to backgrounder or feeder weights ourselves however have decided to spell country and conserve grass for 1st round weaners coming down this year.				
Temperament	Quality Grades		Store Condition		Muscle Score
	Very Good	10%	Store	100%	C 100%
	Good	82%			
	Fair	8%			
	Yards		Crush		Paddock
Handled With	Docile: 21 head		Docile: 12 head		Quiet: 114 head
	Quiet: 93 head		Quiet: 100 head		
			Slightly Stirry: 2 head		
	Very well educated weaners with extensive handling with dogs and bikes. Mustered easily in the paddock and worked through yards with no concerns at all. Small percentage turned around in the race or baulked at the scales however all walked over again easily and with little to no stress. 100% settled quietly and easily after drafting content to lay down and had to be pushed away for photos.				
	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles				
Notable Traits	Traits 20 Head small percentage showing signs of ringworm 10 Head small percentage with some fly irritation				
Assessor Comments	A good quality line of light weight weaned Steers in store condition and ready to continue ahead. Steers weaned in October 2023 and have lost all their milk fat and are firing ahead on a fresh green body of predominately Mitchell and Flinders Grasses with summer herbage present. 100% vendor bred out of soft brahman and Brahman cross cows by Charolais, Charbray, Brangus, Droughtmaster and Brahman Bulls. Good medium frame Steers that are well suited to southern markets being predominately soft Brahman cross and Charbray types with minimal hump and cleaner coats approximately 26hd in this lot would be considered high grade Brahman.. 100% weighed at assessment after 4 hours off feed and water with 4% curfew deducted for buyers piece of mind . Exceptional temperament and very well educated these Steers are a pleasure to handle in both the paddock and the yards. All the hard work is done on these Steers simply drop them in the paddock and watch them grow!				
Assessor	Ashley Naclerio (Level 1 Accredited) Phone: 0400 448 679				
Delivery Period	09/03/2024 to 13/03/2024 (5 days)
