Comment on Fat Score 1 Cattle: cattle are solid in condition and considered fresh store to forward store condition. No concerns trucking distances in excess of 800km having all been on a truck before and bounding ahead on a rising plane of nutrition.

Vendor Bred: Yes

Stock History: Out of a highly functional control mated herd of Brahman x Brangus and Droughtmaster cross cows by Black composite and Charolais bulls.

Lifetime Traceable: Unknown

Bloodlines: Original brahman herd of cows crossed with Black composite bulls for 12 years. Some Droughtmaster influence from neighbouring bulls

Grazing Conditions: Excellent body of predominately fresh green Flinders and Mitchell grasses with areas of Buffell grass throughout. Numerous summer herbages are present through the pasture. Undulating black soil downs.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status: Treated with 200 day compudose

J-BAS Score: 6

Vendor Comments: A good quality soft line of last years weaners being offered to the market to make room for weaners coming through first round. Excellent temperament with a lot of time spent on the education and handling of these steers.

Temperament was spot on in these steers with only a small percentage becoming slightly agitated under close pressure. Significant pressure was applied in the weighing process with portable scales not fitting neatly in the crush and some time having to be spent to get accurate weights. All steers settled quickly and quietly after assessment and where walked out of the yards on foot with 1 person in the lead.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles

Assessor Comments An excellent quality line of Black composite steers that are well handled & educated ready to continue their journey into heavy feeders or grass bullocks. Excellent temperament and well educated steers with only a small portion becoming slightly agitated during the assessment process but quickly settling after assessment. Tidy heads with good moderate frame and plenty of bone these steers will continue to perform for prospective purchasers and offer options right through from feeders to grass bullocks. Small percentage mouthed with any #2's noted mouthed at assessment to be 100% milk tooth. 100% Blacks with the odd steer showing higher Bos Indicus content and minimal hump height, 3 steers showing some tiger stripe brindle through the black and 1 x steer having warts on his eyes. these steers are highly suited to the southern markets and are good easy doers with plenty of scope to continue their growth. Please note vendors have another 3 deck line of Crossbred type steers in this sale
