|                    | Last Year these heifers were weaned and put on the road and walked 4 days to Mostly Hills campdraft , where they were competed on and trucked home. This level of handling and a concerted genetic effort to breed cattle of good temperament has made these cattle a pleasure to work with.                                                                                                 |                                           |                |
