Assessor Comments	Stirry: 8 head		
	Heifers flowed through cattle yards with ease. Cattle were all handled through round yard at assessment with only a small amount stirring up in the confined space under pressure but once back with the mob settled straight back down. Heifers need steadying up through gateways.		
	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles		
Assessor	Buyers 81 PCAS eligible Santa & Santa X heifers that are all frame with plenty of compensatory gain to be had. Heifers are out of a very fertile cow herd that are known for producing cattle to perform on grain and grass. Heifers have had a chance with bulls with only a couple of heifers showing some signs of calf but a majority weight related. Mouthed all 20 x red tags heifers (2022 Drop) head at assessment which was a mix from lighter weight heifers through to heavier heifers with 9 x milk teeth, 9 x 2 teeth & 2 x 3/4 teeth also mouthed 10 x blue tags (2023 Drop) with all presenting as milk teeth. Buyers heifers are starting to go ahead with an opportunity to freshen up and trade on or keep a run of replacements out of them.
