	Heifers flowed through the yards & up the race with well. Odd heifers stirred under pressure in crush and small yard but settled once back in mob. Heifers need steadying through gate ways but are very quiet in big yards.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses , On foot , Vehicles		
Assessor Comments	101 VGQ PCAS eligible Ultrablack heifers that present in store to forward store condition and best described as medium to large frame. Heifers show all the right breed characteristics with good bone, plenty of length & softness throughout this line. The 'Thylungra' herd are known for their fertility & performance having preformed very well on both grass and grain. This line would suit both future breeding or feeding. Purchaser should also see good compensatory gains as they continue to do and grow into their frame. At assessment 3 x head noticed with some old blue eye scarring but have healed and not bothering them.
