	Heifers handled very well through yards with only a small % becoming agitated in crush but settled again quickly once released . Would assume heifers will be very good to handle after a weaning process			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot			
Assessor Comments	Buyers a great opportunity to secure a VGQ 2 deck line of crossbred heifers. They are out of Large framed Cows by Texas Angus, Drensmaine and Murgo blood Santa's and Kilkenny and Kadanga Valley Charolais Stud Sires. Heifers show good bone, length and depth with the feminine characteristics to be an asset to most breeder herds, alternatively they would be ideal heifers to take through to Domestic or heavy feeder weights as all would fit crossbred programs with only one deemed to have more Brahman content. Note a couple of heifers with small weaner horn missed at branding Please note Vendor has 2 decks brothers this sale
