Handled With	Steers were easy to handle through yards. Bikes , On foot , Vehicles		

Assessor Comments	A great opportunity to purchase a smart line of Angus steer weaners, 8-9 months of age (June/July 2023 drop), yard weaned at assessment. These steers are by Waitara and RDM bloodlines and are well grown for age. They are the top steers of the drop and are in fresh forward condition ideal to grow out for feedlot, trade or export markets. In the past they have been normally retained and sold at feedlot weights late winter early spring. 2 steers have small spot of white under flank, 1 steer had a dried pinkeye and was treated at assessment and will be done again before delivery with orbin cream. Steers are well handled and are up to date with all animal health.
