			Stirry: 3 head					
	Cows are typical of cattle running in larger pastoral conditions, they are well handled and work through the yards well. Cows didn't show any signs of aggression, but typically a couple did start to stir up when placed under a pressure situation away from the mob. Overall quite, well handled breeders that have been through the handling process plenty of times before.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses , Vehicles							
Assessor Comments	A good mob of vendor bred, cast for age breeder cows with 34 calves currently at foot. They have been very fertile breeders for the vendor, producing a calf every year substantially securing there longevity within the herd. Continually joined to Droughtmaster and Brahman Herd Bulls. This mob offers a very good trading opportunity to the purchaser, with excellent quality calves on the ground and good framed cows to fatten. Although the cows have not been preg tested, visually and historically they appear calfy. Three of the lightest conditioned cows were mouthed to be broken mouth missing 1-2 teeth, Three cows slight capped hips, three slight fly bite and one cow with a small dog bite hind nearside leg and bite on the nearside shoulder were noted at assessment, refer photos. Overall a handy trading opportunity of cows & calves on the move after good recent rains.							
Assessor	John Soutar (Level 2 Accredited) Phone: 0429 770 018							
Delivery Period	11/03/2024 to 12/03/2024 (2 days)
