Assessor Comments	A line of Angus NSM Heifers, at assessment the Heifers weighed from 436-632kg to average 526kg after a wet curfew and present in a forward store condition. The Heifers are sired by Inglebrae Angus Bulls, and would normally have calves on the ground at this age, although were unable to be joined at the required time, so they have been running with a younger mob of heifers, please note a younger sister line in the same sale.
