Assessor Comments	A good to very good quality line of vendor bred Angus heifers. PTIC to Texas Korporal Line bulls both selected on GL and calving ease. Pregnancy tested by a registered vet on 04/03/24, with pregnany certificate available. They are mostly medium to large frame and are in forward store to prime condition. This line has been joined to the one of the same bulls as the other line of heifers but one bull jumped into the heifers in mid September and this is the result - a line of the red taggers. These are nice quality and well grown heifers PTIC to selected Tex Angus bulls that would make a solid addition to breeding herds.
