Assessor Comments	Buyers, here presents an opportunity to purchase an extremely high quality line of 3in1 units with outstanding vealers at foot. Cows are exceptionally roomy with outstanding milk and udders doing an outstanding job on their calves. The body condition the cows have held in a dry season is exceptional. All but three cows are PTIC 4-6 months by the same sire as current calves. There are two early calves 6-8weeks which we assume their mothers are not detectable in calf , the balance of the calves are 6-8 months.
