Assessor Comments	A good to very good quality line of young breeders with calves at foot, and redepastured to Angus bulls. They are good medium to large frame and are doing an excellent job on their calves. Odd heifer with white on udder, one calf with white on belly. Calves had not been tagged or marked at time of assessment but will be done prior to delivery. Whilst Some calves appear to have small blemishes on eyes, no active pink eye was observed at assessment.
