Vendor Comments

Young cows that have recently had their 2nd calf from them and have been PTE. Would usually be retained into an autumn joining but have been offered to the market to minimise autumn calving numbers.

Assessor Comments	Well bred line of PTE young angus cows. They have recently just weaned their second calf and currently present in forward store condition. Cows carry sound Hazledean genetics and stand sound on their feet. A visual tail was removed during assessment and now present as tidy line of young females worthy of another chance. They are bred from a genuine large frame herd and will continue to mature the same if given the opportunity. Vendor is offering a total of 113 females across two sales. 50 2022 drop heifers in the weaner sale and another line of 41 2021 drop females in the eastern states sale. Please call for further information.
