20 Head (100%) PTIC, from 2 to 3.5 months (at time of assessment 06/03/2024). Certificate Available.

Pregnancy Terms

AuctionsPlus Standard Terms apply.

Temperament	Yards	Crush	Paddock
	Quiet: 11 head Slightly Stirry: 8 head Stirry: 1 head	Quiet: 9 head Slightly Stirry: 7 head Stirry: 4 head	Temperament not assessed in Paddock
	There was a few older cows in the mob that were drafted off that were quite fizzy at the start. Making some of these girls slightly stirry as they came through the race & crush. Once the older cattle had been bushed, & it was just these cows left in the yards, they settled right down & were completely different to handle. Listed above as slightly stirry/stirry, however given the circumstances, I think with some quiet handling & without any hot cattle around them, they would be much better.		
Handled With	Bikes , Dogs , On foot , Vehicles , Polaris Buggy		
Notable Traits	Traits 1 Head Lump on Jaw 3 Head Minor Eye Blemish, <90% vision 1 Head Slightly long Toe, back foot 1 Head White Eye, recent pink eye, < 5% vision		
Assessor Comments	EU accredited females boasting a long rich history of select, high class Reiland Angus genetics in their pedigree. The Houston herd is highly regarded by top end feedlots & abattoirs alike - especially for their early maturing & high growth patterns, & as grass kill bodies. These are big boned, long bodied matrons that will deliver a quality, growthy steer calf & a heifer with herd improving genetics. These are healthy, mature aged cows, still with years of productivity in them. Cows have recently had calves weaned off them, are cleaning up underneath & going forward. Please see photos & video for full contentment.
