Assessor Comments	A very well bred and attractive line of genuine rising 3yr old Hereford Females, the depth and years of breeding are displayed in this line of medium framed, solid boned cattle. They present in strong forward condition and are in perfect order to go into calving with all females visually showing signs of being in calf and beginning to soften down. A rare opportunity to purchase "Marlex" females which are classed breeders not culls only on offer due to season and a need to reduce numbers from an age group. These young breeders are reaching the prime of their productive life and will continue to mature with age and have the potential to be large framed matrons of a herd. The Vendor has retained a strong focus on type, productivity, fertility and easy doing as their key principles of selection. These visually appealing females represent over 70 years of breeding and are selected from the closed "Marlex" herd. # Joined to quality Wongawilli, Tarcombe and Glendan Park Hereford Sires.
