Vendor Comments

Steers are part of a annual turn off, they have great temperament which have been handled by a husband and wife team.

Steers have performed well as they have been rotationally paddock grazed.

Temperament	Yards	Crush	Paddock
	Quiet: 78 head	Quiet: 78 head	Temperament not assessed in Paddock
	Credit to the vendors, as these steers were excellent to handle through the yard and in the crush. Steers have a quiet temperament which could be attributed to being weaned well. The cattle are well handled as they are part of a rotational grazing program.
