Assessor Comments	Vendor is offering a very good quality line of 60 Weaned heifers that are best described as Angus Speckle Park cross heifers. With the recent summer rain these heifers are thriving and reaching optimum condition with plenty of bone and frame. The vendor has done an excellent job educating these heifers as they are very quiet to handle through the yards and the paddock. They are well bred and known for their strong fertility traits, shown through their preg test results over the years. These heifers would make ideal future breeders or easily go into a backgrounding role. They will not disappoint.
