	Heifers worked well through yards and crush. Did move freely through yards but easily steadied up and blocked. Heifers walked down the race and into crush very well but some did become agitated when caught in the head bale. (Described as Slightly Stirry)

Assessor Comments	Lead draft of 283 Heifers for sale. A very good line of 80 Angus Heifers - 1 Brand. Acc Breeder. Heifers are well grown and show true to type angus characteristics. Heifers experienced very dry conditions in 2023 until rain in Nov/Dec. Had another set back in February 2024 with 190mm rain overnight but doing very well again now. 2 Bulls did get in with heifers - date unknown but thought to be Nov 2023. Taken out 15/12/2023. Heifers were injected with Ovuprost on the 29/01/2024. Very well bred heifers. Steers are keenly sought after by previous purchasers and purchaser of last years heifers commented very favourably on them. Vendor has another 3 lots this sale. Suit feedlots or make a very good line of future breeders. Heifers in good store condition and potential for very good compensatory weight gain.
