2 Head	Old Blue Eye scarring (not detrimental)
2 Head	Small Amount white underneath

Assessor Comments: A good line of Angus Heifers - 1 Brand. Acc Breeder. Run of 283 Angus heifers offered by the vendor this sale. Heifers had a very dry period in 2023 prior to rain in November/December and experienced another set back in February 2024 with 190mm Rain overnight. Doing very well now. 2 Bulls did get in with heifers - date unknown and were removed 15/12/2023. Heifers were injected with Ovuprost on the 29/01/2024. Very well bred heifers with steers highly sought after by feedlots and last years purchaser of heifers commented very favourably on them. True to type Angus heifers that will suit to take through to feeder weights or make a very good line of future breeders. Heifers in good store condition and potential for very good compensatory weight gain.
