Assessor Comments	Here is a tight draft of good quality young steers to take on to feed. Steers averaged 260kg at assessment. These steers are normally grown out to feeder weights but given the current dry time they cannot be retained. Steers were good to handle in the yards and in the paddock. Steers are Tivoli, Pine Creek & Hazeldean blood lines and are out of medium to large frame cows. Cattle have been recently drenched with Flukazole and are powering ahead. intending buyers please note that a handful of cattle have old pink eye scaring in one eye that is not deemed detrimental. N.B vendor has another 4 lots in same sale.
