Assessor Comments	Small line of vendor bred Angus cross weaner steers that are keenly sought by repeat buyers. Steers weighed 195kg to 222kg to average 211kg following a 18 hour dry curfew. These weaners were good to handle during assessment and drafting, normally worked with dogs from a vehicle and will now remain in the yards and adjoining holding paddock up until delivery, for weaning and further handling. Brother lines in the same sale. No allowance has been made for weight loss during weaning - make your own assessment. Calves will be fed on Oaten and Vetch hay.
