Assessor Comments	Good quality line of young heifers to take on as future breeders or to feed. These heifers are normally retained as future breeders but given the current dry time they cannot be retained. Heifers were good to handle in the yards and in the

paddock. Heifers averaged 437kg at assessment & are Tivoli, Pine Creek & Hazeldean blood lines and are out of medium to large frame cows. Cattle are double vaccinated with 7in1 and are in perfect condition to join. Intending buyers please note one heifer has a very small lump behind her jaw but is not deemed detrimental. N.B one heifer has a while strip from navel to udder. Vendor has another 4 lots in same sale.
