Vendor Comments

Complete group of steer calves from a line of young cows. Heifers being retained.

Temperament	Store Condition		
	Fwd Prime	20%	
	Fwd Store	60%	
	Store	20%	
	Yards	Crush	Paddock
Handled With	Quiet: 16 head	Quiet: 15 head	Temperament not assessed in
	Slightly Stirry: 2 head	Slightly Stirry: 3 head	Paddock
	Typical of breed with some tendency to run to the space. But handle well and only agitate if separated from group. Would develop into very quiet line with continued handling.		

Assessor Comments	Nicely bred line of Angus x steer weaners. Calves show plenty of frame and are bred from genuine larger frame droughtmaster cows. Calves for their age show good temperament but would be best suited to going through a full weaning program at delivery to ensure they calm accordingly. They represent the vendors complete drop with the heifer portion being retained. They stand even as a group and a relatively tight weight range.
