Assessor Comments	Buyers on offer are a line of mixed aged ewes that have had a tight five week joining to the Tullawong Merino Rams, that will commence lambing on the 1st of August. These ewes have been classed annually, and would be a sound addition to any merino enterprise or even a trade option to lamb down and re join to terminals. A loss of lease is the only reason this line of ewes are being offered, buy with confidence that your purchasing breeders sheep with only rams being introduced into the flock every year. Note ewes are station mated, due to time restraints we are selling this way. Annually the flock is gets scanned with all empties sold to the fat market.
