Handled With	A well behaved run of calves. These calves have had plenty of handling due to an AI program on their mothers. Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head Old pink eye - treated and barely noticeable.		
Assessor Comments	An extremely well bred run of angus steer calves, that have an excellent breeding program behind them. They have been well handled and were very quiet to handle in the yards. These steer calves will grow out to suit any market in the future. These steers have gained 1 kg per day since weaning. This lot comes highly recommended and have performed very well for previous buyers.
