Assessor Comments	A genuine quality line of vendor bred PTIC Angus cows on their 4th to 6th calf. Cows are due to calve early August for approximately 6 weeks to Raff and DSK blood Angus bulls. All cows are moderate to large framed and have not long weaned large calves. An unfortunate sale for vendor due to ongoing water issues. These are not culls, simply the earlier calving cows in the vendors herd of cows when pregnant testing. Please note 18 younger cows in same sale.
