	Some of the better temperament females i have handled especially mothering small calves..		
Handled With	Bikes , Dogs , Horses		
Notable Traits	Traits 10 Head white patches on udder region(approx)		
Assessor Comments	Outstanding quality line of NSM cows and calves. Cows are in the prime of their lives and are genuine large frame free moving roomy females who carry their weight well standing on very good structure. Cows are a combination of vendor bred and purchased as a line of PTIC heifers in NOV 2022. This sale marks the end of the vendors autumn calving program to focus on spring calving program for ease of management. This represents a unique opportunity to acquire proven genetics which generally would not be offered to the market. Cows present evenly as a group and milking extremely well on minimal feed. Cows are offered for genuine sale for prospective buyers to prepare for an autumn joining if desired. Noted 2 calves with old scarring along with a cpl cows also. Please call for further detailed description if required.
