	These females were good to handle & flowed very well through the yards. Suitable stock for most levels of livestock handling abilities.		
Handled With	Bikes , Dogs , Horses , Vehicles		
Notable Traits	Traits 1 Head Old eye scarring (1 eye only). Not detrimental in assessor's opinion. - Ref to photo		
Assessor Comments	Quality line of 2018 & 2019 drop PTIC Black Baldy females. These females are pregnancy tested in calf for an 8 week calving to commence early August 2024. Joined to high indexing Mundarlo Angus sires (EBV's attached). These fertile & productive breeders had weaners taken off at pregnancy testing and have done an excellent job raising their calves. These females are classed in breeders, only being offered to the market due to the vendor choosing to only retain an Angus herd. Excellent opportunity to purchase quality breeders.
