Notable Traits	Traits 2 Head Light Pinkeye Scarring
Assessor Comments	15 PTIC Heifers Acc. WC & MA McCrohon. The above heifers present in forward condition. Heifers are bred from combination of Wattle Top & Glenavon bred cows & sired by Ardrossan Nectar NAQQ67. Rejoined to Ardrossan Bulls NAQS330 & NAQS267 commencing 10/11/23 till 9/01/24. Bull selection is a stringent process for the McCrohon family where fertility, strong carcass attributes, IMF, structure & calving ease are all major key's in their herd selection. Heifers generally would be retained but since have fallen out of a strict tight calving window. Vendor places a strong emphasis on low stress stock handling which is clearly evident as these units were a pleasure to assess. Here's an opportunity to secure a neat line of exceptionally well bred future breeders which would compliment most spring calving operations. Please note 1 Heifer was treated for pinkeye at assessment.
