8 Head White on udder													
Assessor Comments	A B-Double load of good quality, PTE Angus heifers. These heifers were part of the Clea herd rebuild with the Clea Angus breeding values in mind when selected. A portion of this mob are Clea Born and bred and based on Rennylea bloodlines, the balance are Hazeldean and Reiland bloodlines. Calves from these heifers are purchased by Rangers Valley Feedlot year in year out. High quality herd that would be an ideal opportunity to secure some good genetics. Could also be purchased as an option to join and trade. Presenting in forward condition, ready for the bull of choice. Please note: Clea Angus PTIC older cows in same sale. Heifers were checked for any structure issues/eyes etc and were removed at assessment. A portion of these heifers have calves previously with several (5) noted to have a bag of residual milk underneath having just had calves weaned off.												
Assessor	Damien Roach (Level 1 Accredited) Phone: 0427 253 250												
Delivery Period	15/04/2024 to 19/04/2024 (5 days)
