All cows were placid and sensible to walk through in the yards, turned their heads and quietly headed for the gate when pressure applied, with the lead even self feeding right through the race from the back yards. Cows continued to self feed up the race, stand quietly on the scales, & exit at a walk. A pleasure to handle & a credit to the vendor. Assessor Comments	A excellent opportunity to purchased a line of renowned Upper Murray Bred Females. Mature aged, experienced breeders that bring with them a long, rich line of Rennylea Angus genetics. These females have remained in the system every year following Clear Springs Pastorals strict classing criteria, with feet, fertility & temperament being non negotiables. These experienced breeders have produced a healthy calf every year and are once again Preg Tested back in calf to Hazeldean & Clear Springs APR sires for an early August calving. Females that still have a number of years of productivity to offer, and will be an investment for the future, with the genetically rich heifer calves to retain. Alternatively, these cows present in exceptional order, and would be ideal units to calve down, split, and take advantage of the Spring markets. Buyers please Note. Vendor has another 2 lots in sale.
